Corporate Overview

Copper Cove is a certified Federal, State, and Veteran owned small business who does procurement of building supplies and equipment as well as facilities support services for Federal and State government agencies. Our purpose and honor is to procure and leverage resources and skills to strengthen business relationships and maintain quality assurance in all steps of agency requests. In doing so, our services allow business partners to focus on providing incomparable services to their clients and we stand ready to assist because our clients are our most important assets. For facilities support, our facilities teams provide top-notch cleaning, sanitation and other building maintenance services to our clients. Copper Cove Services is here to support your requirements. We are very familiar with the ongoing demands of our agencies and stand ready to provide prompt, courtesy and ethical support.
